

On April 2017
45 000
 farmers had been profiled (digitally registered) by MUIIS services agents

SMS = weather data
 agricultural tips
 financial services
 market information
 (*270*67#)

DURING FIRST YEAR

18 200 food producers have been reached.

8.026 women were reached.
 (Target was 7.000)

This project is funded by The Dutch Ministry of Foreign Affairs and being implemented through the Geodata for Agriculture and Water (G4AW) Facility of the Netherlands Space Office (NSO).

**Market-led
 User-owned ICT4Ag-enabled
 Information Service**

MUIIS

80% of people engaged in agriculture in Uganda

Important crops cultivated in northern, central, western and eastern Uganda.

! Poor access to physical infrastructure and market

! Lack of agricultural information for farmers

MUIIS: Innovative agricultural information services in Uganda

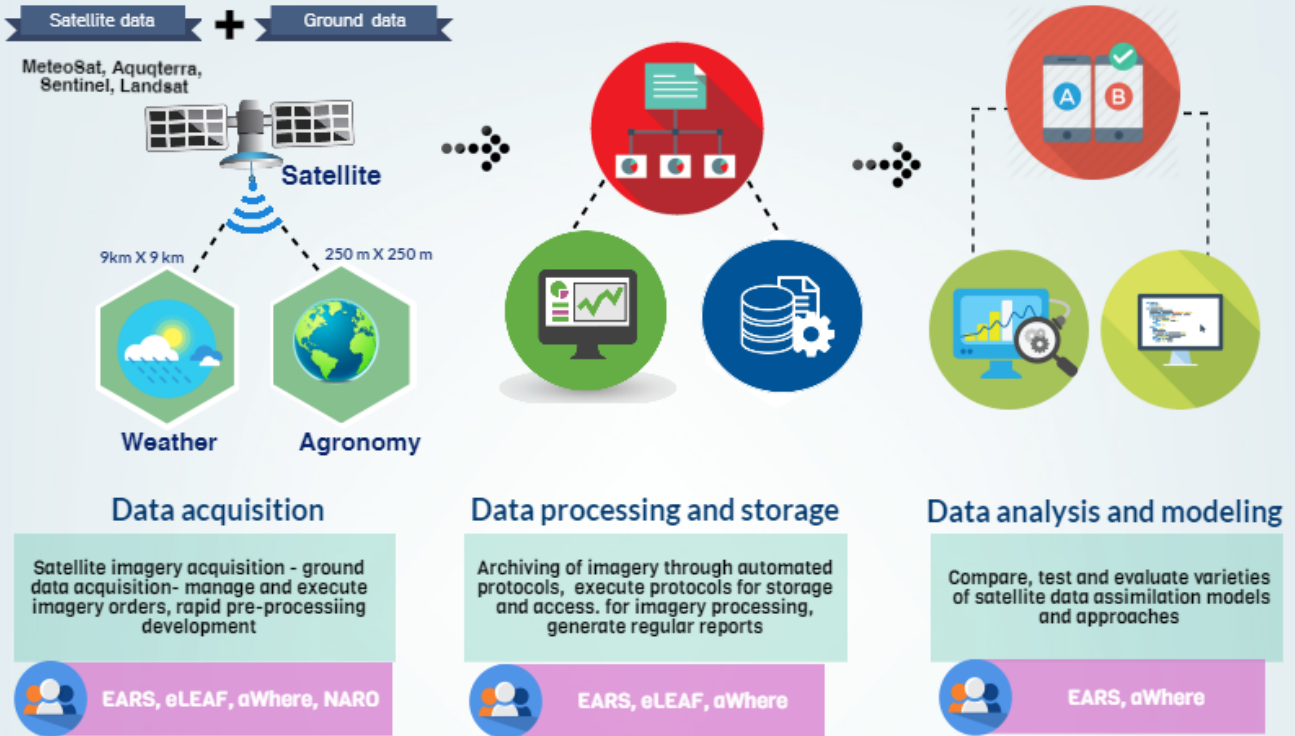

MUIIS is a project implemented by CTA in partnership with AGRA, aWhere Inc., EAFF, EARS-E2M, eLEAF and Mercy Corps, Uganda
